UI Designer / Frontend Developer

Personal

I'm Olgierd — a medical student who also happens to have a strong technical background and loves building things. In my free time, I build apps that help students learn more effectively and turn ideas into hackathon-winning projects.

Experience

05.2025-10.2025

Software Engineer Snowflake

Collaborated on the development of a Document AI tool using React and TypeScript, delivering production-ready solutions with a focus on reusable components, modern workflows, and Scrum practices.

03.2022-06.2022

Frontend Engineer Intern Allegro.pl

Developed an internal notification editor in React and TypeScript with a focus on reusable components and responsive design. Gained experience with Git, VS Code, CI/CD, and Agile workflows, delivering production-ready solutions.

12.2021 - 02.2022

Tech Trainee Evidence Prime

Supported development of internal tools and responsive admin panels, collaborating with UX/UI on design improvements and gaining experience with Agile workflows.
